

Sprint 2 Report

Product Name: Roommate Expense Tracker

Team Name: RET

Date: 7/13/25

Actions to stop doing:

We were good with our second sprint. Tasks were completed on time and the team worked well during the sprint.

Actions to start doing:

Teams should have short mid-sprint check-in meetings to ensure the problems and bugs are addressed before the wrap up of the sprint where every team member attends.

Actions to keep doing:

The team should continue dividing the larger user stories into smaller, trackable tasks to improve task visibility and completion of sprints as well as managing the spring pacing. The team should keep doing weekly collaborative coding sessions to help each other.

Work completed/not completed:

Completed:

- 2.1: As the head of house, I want to create a household so that I can manage shared expenses with my roommates.
- 2.5: As a user, I want to create an expense when I need to split a receipt or other bill with the other roommates.
- 2.6: As a user, I want to read the expenses my roommates create so I can stay up to date with who I owe money to.
- 2.7: As a user, I want to update an expense so I can correct or adjust details and mark an expense as completed.
- 2.8: As a user, I want to delete an expense so that I can remove incorrect entries.

Incomplete:

- 2.2: As the head of house, I want to read roommate information so I can manage members.
- 2.3: As the head of house, I want to update who the head of house is when I move out.
- 2.4: As the head of house, I want to delete a roommate from the household when they move out.

Work completion rate:

- Total user stories completed: 5
- Total estimated ideal hours completed: 23 hours
- Total sprint duration: 7 days
- Actual completion time: 27 hours
